DL6750
Digital Weighing Scale

ARTIFICIAL INTELLIGENCE

Smart
New Generation AI Advance Technology Printing

Convenience
An Easy-to-use machine that is user-friendly

Stable
Accurate Measurement Reliable Printing

Efficiency
Save Cost and Increase Efficiency

New Generation Smart AI Recognition Automatic Printing Scale

Pegasus DL6750 Digital Weighing Scale With Barcode Printer ScaleRain Water- evidence, humidity- evidence, nonentity-resistant. It's profitable to commodity bracket operation. Searching products snappily by product No. Support for multiple foreign languages, markers, similar as background, the name of the item, etc.. Support double screen fleck matrix display, easy to promote products.
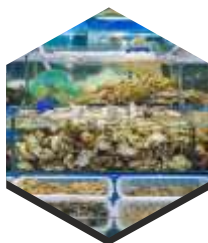

➡ AI scale automatic understand vegetable & fruits

➡ Easy item scanning no mistake

➡ Print Label fast, Easy Label designing

➡ ERP integrated solution for price and PLU

➡ Big Touch digital Lcd for item selection

Model	DL6750
Operator Display	10.1 capacitive touch screen, capacitive touch screen, resolution: 800×RGB (3) ×1280
Touch screen type	Capacitive touch screen
Customer Display	LED +LCD Screen
Range	6kg/15kg，15kg/30kg
Division value	Division value
OS	Android 11.0
CPU	Rockchip RK3566UPto1.8GHz
Memory	2GB RAM 2GB RAM 4G
Storage	16GB
PLU Type	Barcode, PLU name, item number, unit price, pricing unit, first label, tare, barcode, department, group, package date, package time, preservation date, weight, package type (normal, fixed weight, fixed price, both fixed weight and price), nutrition message, traceability code, additional information 1, additional discount
Barcode Type	EAN 13, CODE 128
Printer type	Linerless paper, width 62mm, Φ105mm
Printer width	56mm
Paper type	Receipt +Sticker
Print Speed	110mm/s
Port type	WIFI, 1*Ethernet, 1*RS232, 1*Drawer, 2*USB
Power	AC 100～240V 50～60Hz
Working temperature	0℃～40℃
Working Humidity	Working Humidity Camera
