A solution for enhancing Customer experience

Pegasus PQB15 is touchscreen queue system is a digital solution used to manage Queues and streamline customer flow in various settings such as Hospitals, Banks, Government offices, Retail stores, and more. These systems aim to improve efficiency, reduce wait times, and enhance the overall customer experience by providing a structured and organized approach to queue management.

Additionally, they can help businesses and organizations optimize resource allocation and staff scheduling based on real-time queue data.

- Optimize resource allocation
- Improve quality of service
- Increased revenue for your business
- Provide better service to customers
- Unleash power of adaptive digital signage
- Increase functional competence & staff efficiency
- Designed to help reduce burden on service representatives

What's Included:

Display LCD Screen

It is important to ensure that the customer has the most entertaining time while waiting for their turn. A marketing collateral display is also a good way for businesses to educate visitors about their products and services.
