

All in one POS Terminal with Printer & Touch Screen

Features

- Compact design, small occupation
- Built-in printer, 58mm/80mm paper width optional
- Customized as your requests

Overview

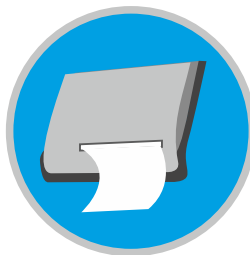

The Pegasus MN8320 mini compact terminal will be appreciated by customers looking for smaller, yet powerful, mobile payment solutions. The device has an eight-core processor and 8GB of memory, so the accounting software is easy to install.

The display is 11.6 "in size with HD resolution and IPS technology for good view ability in the sun. Despite the smaller size, the integrated 58 / 80mm printer or NFC technology cannot be missed. The Pegasus MN8320 mini also offers plenty of connectors (4 × USB, 1 × micro USB, card slot). The operating system uses Android 6.1.
